

KNEE
Post-op Knee Brace Knee Immobilizer

Your Durable Medical Equipment (DME) Needs

If your physician has identified a need for you to have specific medical equipment after your surgery, you will be contacted by the OrthoVirginia DME Surgery Coordinator prior to your scheduled surgery.

As a courtesy, OrthoVirginia will submit your medical equipment needs to your insurance provider for verification of coverage. Cold therapy, which is an optional product, frequently is not covered by your insurance. We offer it at a cash price of \$250. **If you have any questions or concerns please call the DME Surgery Coordinator at 703-810-5297.**

The medical equipment products pictured on this sheet may be needed after your upcoming surgery and will be provided upon discharge.
